

TECHNICAL DATA SHEET

NVRL -CPV-LS -PS -001

Technical Data Sheet v3
Product Information v1

POSITIVE CATTLE SERUM; VN84

Product type:	Serum
Immunogen:	<i>Lumpy skin disease virus</i>
Immunogen serotype:	n/a
Species of Origin:	Cattle
Production date:	23rd March 2006
Biosafety restrictions:	This product has been heat-inactivated for 2 hours at 56°C . This product is only for in vitro diagnostic use, suitable for use in immunoassays. In house optimization will be required.

TECHNICAL DATA

Unit definition:	1 x 1ml
Storage conditions:	at -20 °C or below
Immunogen / Animal ID:	<i>Lumpy skin disease virus</i> , VN84
Immunogen serotype:	n/a
Immunogen genotype:	n/a
Immunogen topotype:	n/a
Neutralising antibody:	Yes

SHIPPING CONDITIONS

Shipping temperature:	+2 °C to +8 °C
IATA classification:	Non-infectious substance

Notes

IATA classification	Dangerous goods classification of the product according to the International Air Transport Association (IATA) regulations (https://www.iata.org/).
